

Sound Wall Information

MOUNTAIN VIEW - CLEARVIEW BOULEVARDS, SUN CITY GRAND

OVERVIEW

As part of the Loop 303 Improvement Project in Surprise, the Arizona Department of Transportation (ADOT) is building approximately five miles of soundwalls where warranted by noise studies. The residential area in Sun City Grand west of Loop 303, between Mountain View and Clearview boulevards, is identified for construction of a sound wall (SWL3).

PLEASE NOTE THE FOLLOWING:

- ▶ Construction of the new sound wall (SLW3) is scheduled to begin the week of June 18, 2012, and continue through fall 2012. This wall is scheduled for final completion in spring 2013.
- ▶ To facilitate construction of this sound wall, crews must remove the existing privacy wall that borders the common area between Mountain View and Clearview boulevards on the west side of Loop 303. As the privacy wall is removed, crews will put up temporary fencing. The temporary fencing is screened chain link approximately six (6) feet in height.
- Work will begin at the north end (near Mountain View Boulevard) and extend south (to Clearview Boulevard)
- Expect crews in this work zone from 5 a.m. to 2 p.m. weekdays during summer months

SCHEDULE:

- June 2012-July 2012: Remove existing wall and install temporary fencing
- July 2012-August 2012: Dig and construct sound wall footing
- Fall 2012 (specific dates TBD): Build masonry wall
- Spring 2013 (specific dates TBD): Paint wall and establish landscape

The new sound wall is approximately one (1) mile in length with heights ranging from 12 to 18 feet. Like other sound walls on the Loop 303 corridor in Surprise, it will be masonry construction and painted tan and "eggplant purple," and it will feature decorative glass block.

* Schedule is subject to change based on various factors including but not limited to weather and availability of materials.

STAY INFORMED
